Foreword

ZKTeco Online SDK SSL Certificate User Manual
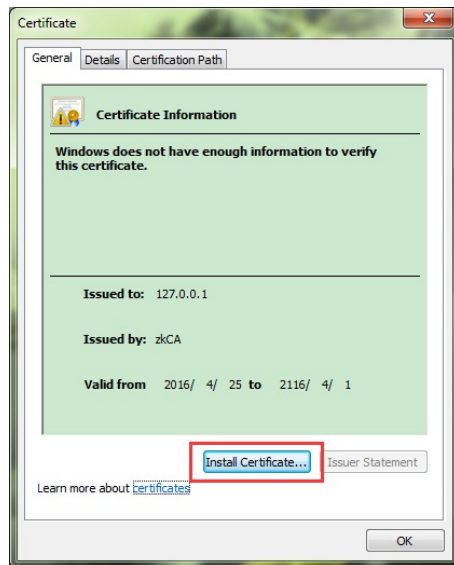

# Certificate Installation

Installing the Client

xmzkteco.local.cer is bound with the domain name 127.0.0.1. Therefore, use 127.0.0.1 when calling the HTTPS interface.
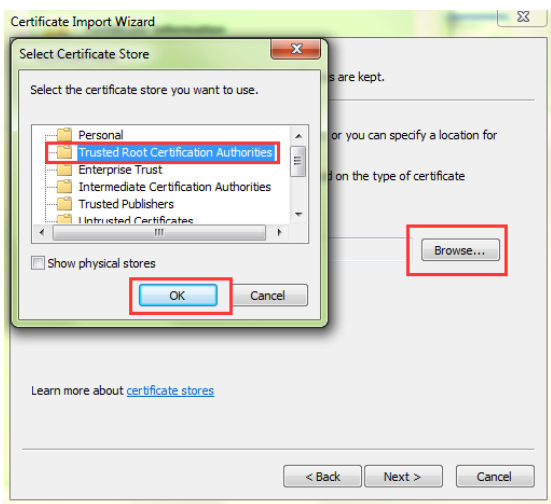

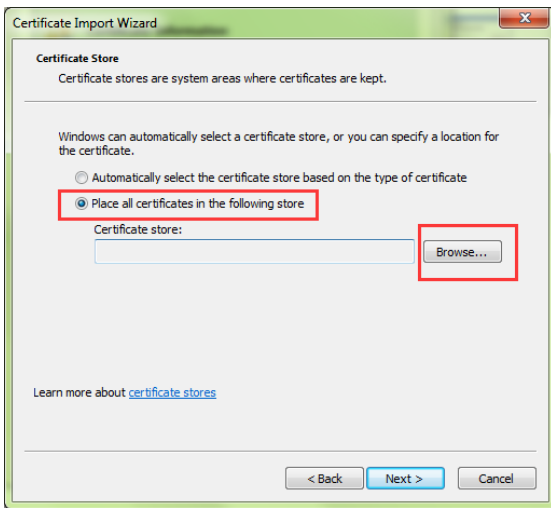

Installing the Certificate

1. Double-click xmzkteco.local.cer, and install the certificate.

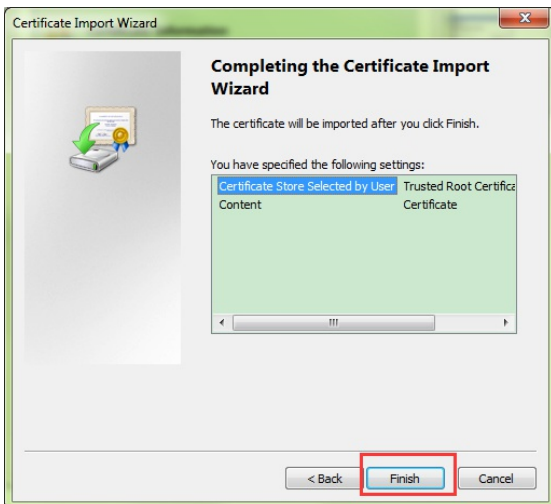

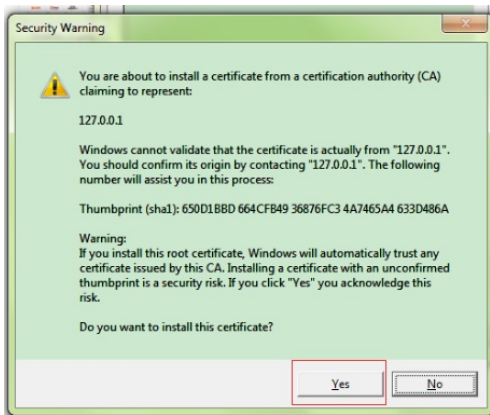

2. Install the certificate for all the users.

3. Install the certificate to [Trusted Root Certification Authorities].
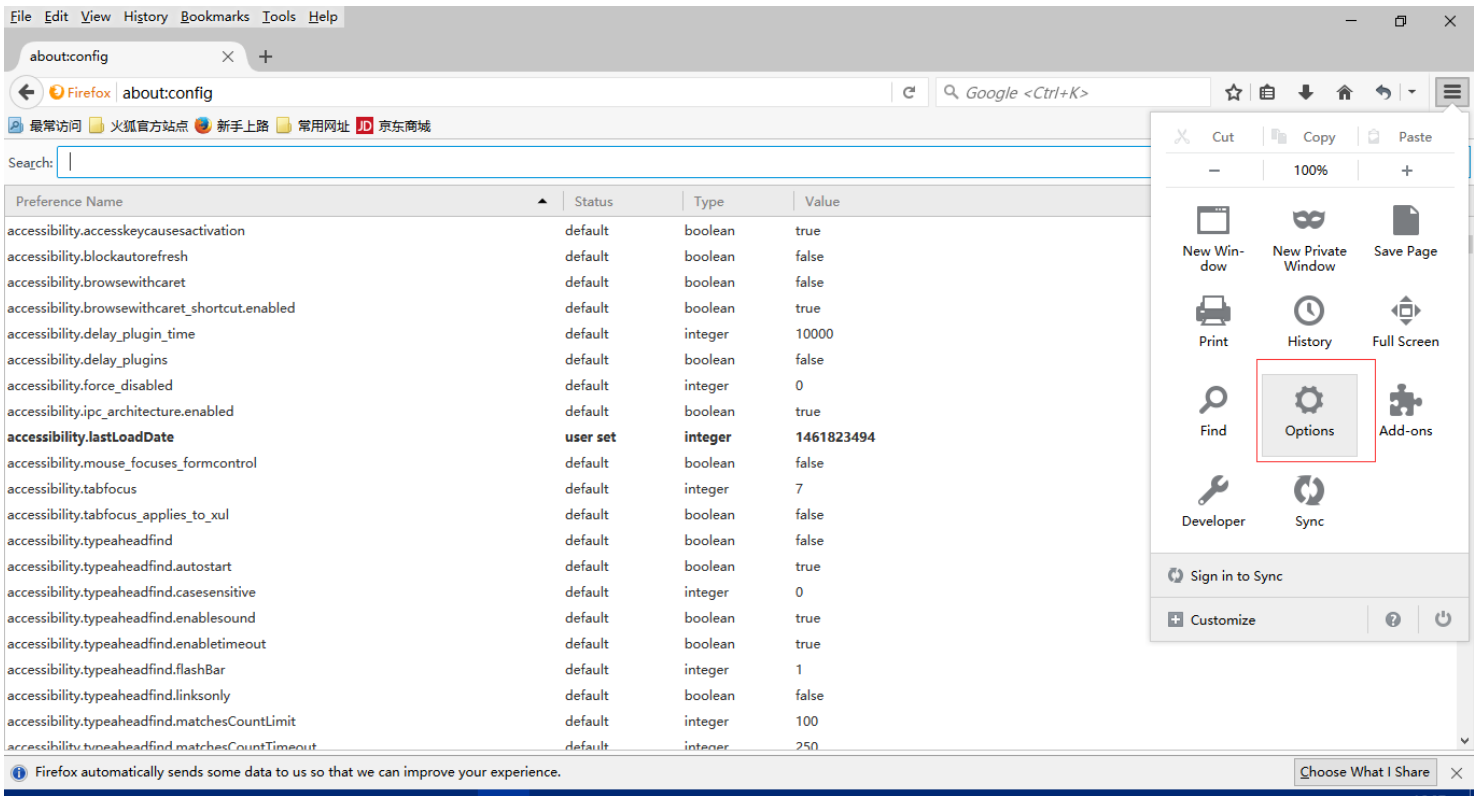

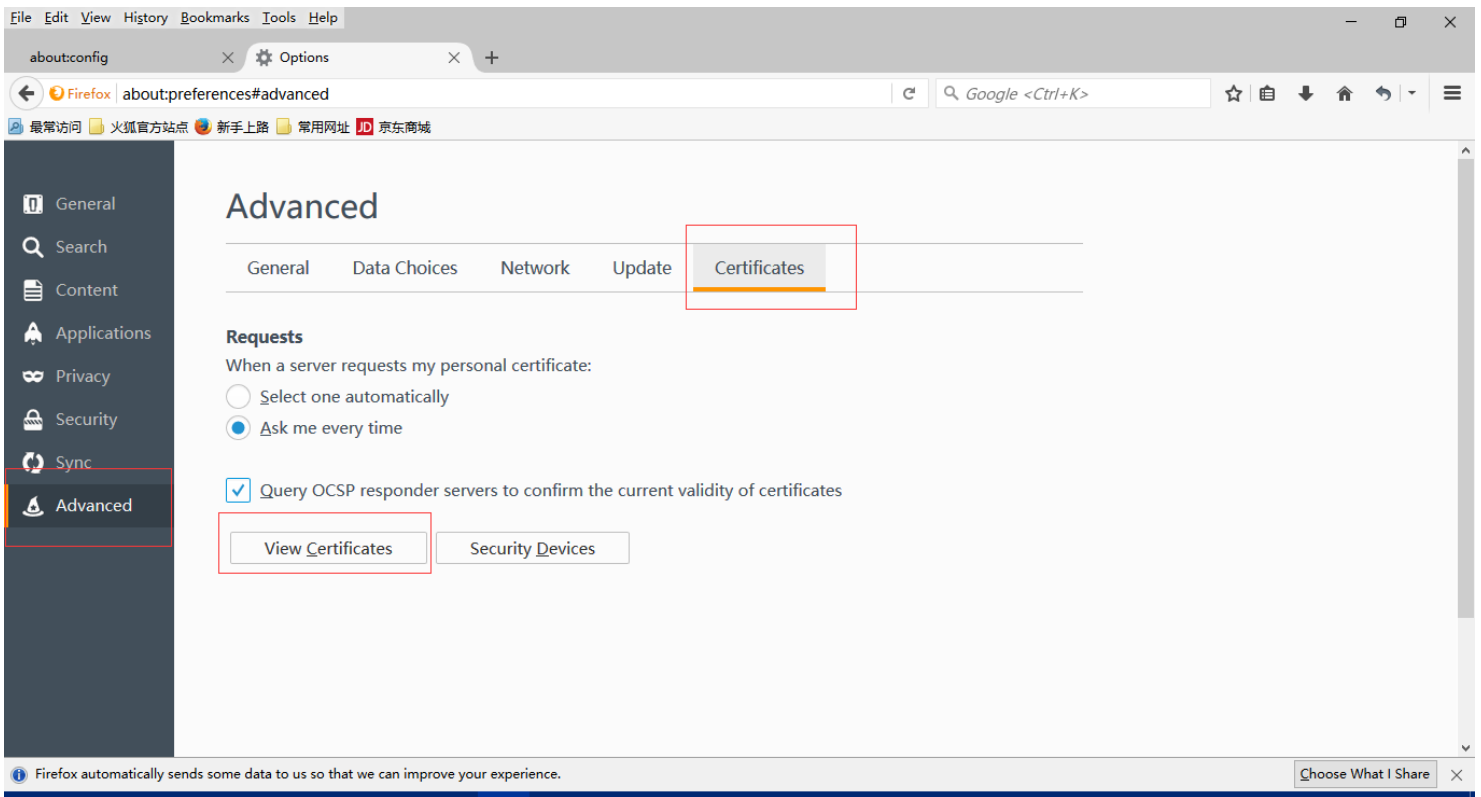

4. Complete the installation.

Configuring the Firefox Browser

Firefox of a higher version requires extra configuration of the certificate.
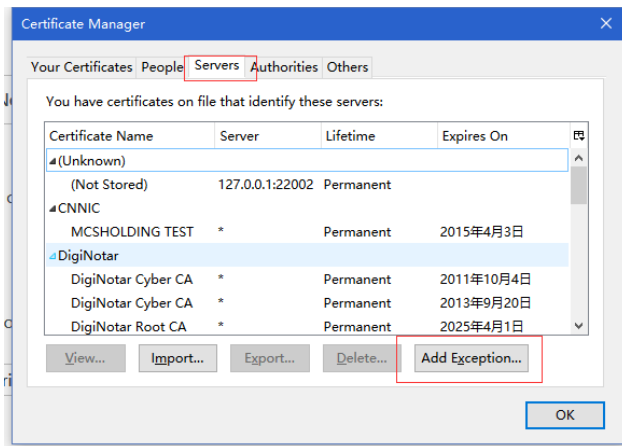

1. Access the Firefox options.

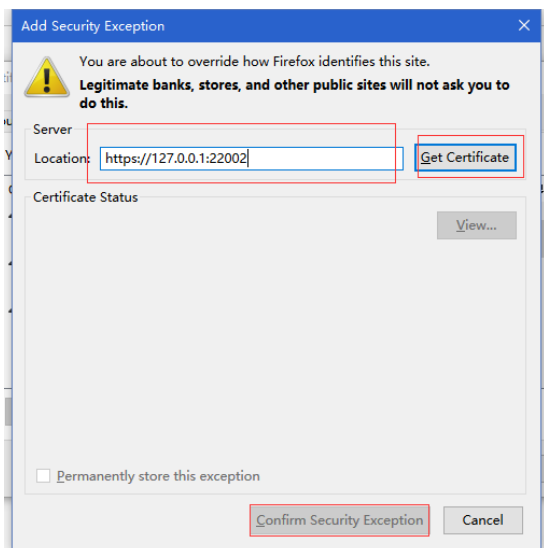

2. Display the certificate settings.

3. Add the server exception.

4. Add the server address to the exception.
